

# Restricted-Use Pesticides Registered for Use in Wisconsin

October 2009

These restricted-use agricultural pesticides are registered for use in Wisconsin. This is not a comprehensive list of trade names but, rather, includes most pesticides used in Wisconsin's agriculture (field and vegetable crops, fruit crops, forestry, stored commodities, and livestock). To see all pesticides registered in Wisconsin, go to [www.kellysolutions.com](http://www.kellysolutions.com). A listing of RU pesticide active ingredients is on the back.

Where specific formulations follow a trade name, only those formulations are restricted-use; otherwise, it is assumed that all formulations for that product are restricted-use. References to pesticide products are for your convenience and are not an endorsement or criticism of one product over other similar products.

<b>Avicides</b>		Lariat	alachlor + atrazine	MesuroI; MesuroI Pro	methiocarb	
Avitrol	4-aminopyridine	Lexar	metolachlor/atrazine	Mocap	ethoprop	
Starlicide Complete; Compound DRC 1339	chloro-p-hydrochloride	Lumax	metolachlor/atrazine	Monitor	methamidophos	
<b>Fumigants</b> (see ATCP 30 to apply metam sodium and chloropicrin)		Parallel Plus	metolachlor + atrazine	Mustang; Mustang Max	zeta-cypermethrin	
Fumitoxin; Gastoxin; Phostoxin	aluminum phosphide	Shotgun	atrazine + 2,4-D	Nemacur	fenamiphos	
Chlor-o-Pic; Pic-Plus	chloropicrin	Stalwart Xtra	metolachlor + atrazine	PennCap-M	methyl parathion	
Basamid G	dazomet	Tordon K	picloram	Phorate	phorate	
Telone II	dichloropropene	Tordon 101	picloram + 2,4-D	Pounce	permethrin	
Pic-Clor; Telone C-17; Telone C-35	dichloropropene/chloropicrin	Volley ATZ; Lite	acetochlor + atrazine	Proaxis	gamma-cyhalothrin	
Midas	iodomethane + chloropicrin	<b>Insecticides/Miticides/Nematicides</b>			Proclaim	emamectin benzoate
Magtoxin	magnesium phosphide	Abba	abamectin	Regent	fipronil	
Metabrom; Meth-o-Gas	methyl bromide	Agri-Mek	abamectin	Scourge	resmethrin+piperonyl butoxide	
Bro-Mean C33; Terr-o-Gas 98; MBC-33	methyl bromide/chloropicrin	Ambush	permethrin	Silencer	lambda-cyhalothrin	
Metam CLR, Vapam	metam sodium	Ammo	zeta-cypermethrin	Sniper	bifenthrin	
Metam KLR, K-Pam	metam potassium	Asana XL	esfenvalerate	Supracide	methidathion	
Profume; Vikane	sulfuryl fluoride	Aztec	tebupirimphos + cyfluthrin	Tempo SC Ultra	cyfluthrin	
<b>Fungicides</b>		Baythroid	cyfluthrin	Thimet	phorate	
Agri Tin; Super Tin	triphenyltin hydroxide	Bifenture	bifenthrin	Tombstone	cyfluthrin	
<b>Herbicides/Desiccants</b>		Brigade	bifenthrin	Vendex	fenbutatin oxide	
Note about acetochlor products: acetochlor is no longer classified as an RUP. However, some older products in the channels of trade still carry the RUP label.		Capture	bifenthrin	Vydate	oxamyl	
AAtrex (& generics)	atrazine	Cobalt	chlorpyrifos + gamma-cyhalothrin	Warrior	lambda-cyhalothrin	
Banvel K + Atrazine	dicamba + atrazine	Co-Ral	coumaphos	<b>Rodenticides</b>		
Bicep II Magnum; Lite	metolachlor/atrazine/safener	Counter	terbufos	Ditrac Tracking Powder; others	diphacinone	
Breakfree ATZ; Lite	acetochlor + atrazine	Danitol	fenpropathrin	Elston Gopher Getter Bait; Force's Ro Dex; others	strychnine	
Buctril + Atrazine	bromoxynil + atrazine	Declare	methyl parathion	RoZol Tracking Powder; Jteaton AC Formula; others	chlorophacinone	
Bullet	alachlor + atrazine	Delta Gold	deltamethrin	ZP Tracking Powder; others	zinc phosphide	
Cinch ATZ; Lite	metolachlor/atrazine/safener	Dimilin	diflubenuron	<b>Wood Preservatives (non fumigants)</b>		
Degree Xtra	acetochlor/atrazine/safener	Discipline	bifenthrin	CCA Wood Preservative (& generics)	chromic acid/cupric oxide/arsenic pentoxide	
FulTime	acetochlor/atrazine/safener	Di-Syston	disulfoton	Coal Tar Creosote(& generics)	coal tar creosote	
G-Max Lite	dimethenamid + atrazine	Empower 2	bifenthrin	Wood Preserving Compound; others	coal tar creosote/sodium dichromate/sodium fluoride	
Gramoxone Inteon	paraquat	Endigo	lambda-cyhalothrin + thiamethoxam			
Guardsman Max	dimethenamid + atrazine	Force	tefluthrin			
Harness Xtra	acetochlor/atrazine/safener	Fortress	chlorothoxyfos			
Intrro (& generics)	alachlor	Guthion Solupak	azinphos methyl			
Kerb	pronamide	Hero	zeta-cypermethrin + bifenthrin			
Keystone; Keystone LA	acetochlor/atrazine/safener	Lannate	methomyl			
Laddok S-12	bentazon + atrazine	Leverage	imidacloprid + cyfluthrin			
		Lorsban Advanced	chlorpyrifos			
		Lorsban 4E (& generics)	chlorpyrifos			
		MetaSystox-R	oxydemeton methyl			

**RESTRICTED-USE ACTIVE INGREDIENT LIST**

According to the EPA's *Restricted Use Products* database, the following federally-registered pesticide active ingredients either have some or all formulations classified for restricted use (a listed active ingredient here does not imply it is registered for use in Wisconsin).

<b>Avicides</b>		<b>Rodenticides</b>		<b>Canceled Active Ingredients</b>	
avitrol	starlicide	chlorophacinone	strychnine	acrylonitrile	EPN
<b>Fumigants</b>		diphacinone	zinc phosphide	allyl alcohol	ethylene dibromide
aluminum phosphide	magnesium phosphide	<b>Wood Preservatives</b>		alpha-chlorohydrin	ethylene dichloride
chloropicrin	metam sodium	arsenic acid	creosote oil	cadmium chloride	fensulfthion
dazomet	metam potassium	arsenic pentoxide	methyl isothiocyanate	calcium cyanide	flucythrinate
dichloropropene	methyl bromide	chromic acid	pentachlorophenol	carbofuran	fluoroacetamide
iodomethane	sulfuryl fluoride	coal tar	sodium dichromate	carbon tetrachloride	fonofos
<b>Fungicides</b>		coal tar creosote		chlordane	hydrocyanic acid
triphenyltin hydroxide		<b>Miscellaneous (fish, vertebrates, antifouling paints, sanitary sewer, etc.)</b>		chlordimeform	lindane
<b>Herbicides/Desiccants</b>		bis (tributyltin) oxide	sodium cyanide	chlorfenvinphos	mevinphos
acrolein	isoxaflutole	cube resins	sodium fluoracetate	chlorobenzilate	monocrotophos
alachlor	paraquat	liquid nitrogen	sodium hydroxide	creosote (wood uses)	phosacetim
amitrole	picloram	rotenone	TFM	cyanazine	phosalone
atrazine	pronamide			cycloheximide	phosphamidon
diclofop methyl	sulfuric acid			DBCP	potassium pentachlorophenate
hydrogen cyanamide				demeton	sodium arsenate
<b>Insecticides/Miticides/Nematicides</b>				diallate	sodium pyroarsenate
aldicarb	fenvalerate			diazinon	TEPP
abamectin (also avermectin)	fipronil			dioxathion	tergitrol
azinphos methyl	gamma-cyhalothrin			dodemorph	toxaphene
bendiocarb	lambda-cyhalothrin			endrin	tributyltin methacrylate
bifenthrin	methamidophos			ethyl parathion	
chlorothoxyfos	methidathion				
chlorpyrifos	methiocarb				
clofentezine	methomyl				
coumaphos	methyl parathion				
cube resins	nicosamide				
cyfluthrin	nicotine				
cypermethrin (zeta)	oxamyl				
deltamethrin	oxydemeton methyl				
dicrotophos	permethrin				
diflubenzuron	phosphorodithioate (phorate)				
disulfoton	piperonyl butoxide				
emamectin benzoate	profenophos				
esfenvalerate	propetamphos				
ethion	resmethrin				
ethoprop	rotenone				
fenamiphos	sulfotepp				
fenbutatin oxide	sulprofos				
fenitrothion	tebupirimphos				
fenpropathrin	tefluthrin				
fenthion	terbufos				
	tralomethrin
