Field Demonstrations

The 2007 Wisconsin Farm Technology Days Field Demonstration Committee has announced the line up of events for the September 18 – 20 show to be held at Plainview Stock Farm near Albany in Green County.

The show will highlight many different aspects of corn harvesting. Demonstrations will feature combines, choppers, bunker facers, baggers, and various types of tillage – including chisel plows, deep tillage units, disks, fall strip units, and vertical tillage.

Field Demonstrations will take place each day from 10 a.m. – noon, and from 1 – 3 p.m. Pick up a map at the show, or visit the website www.greenfarmtech.com. Tuesday morning demonstrations will be held in the field immediately adjacent to Tent City. For other scheduled times, visitors are invited to ride a tram to the designated fields. Trams can be boarded at the tram pick-up area on the east end of Tent City (at the end of Central Avenue).
